Sir,

In forwarding herewith a copy of Senior Surgeon's letter No.C. 1247-11 dated 28-9-1943 in regard to the working of the Scheme of Rural Medical Practitioners, I have the honour to state that the subject was placed before the Board for consideration at their meeting held on 16-12-1943 when they resolved tha the two subsidised dispensaries at Hulikal and Kerlapur be abolished as the area is overflooded with Medical aid already and Ayurvedic Dispensaries sanctioned in their places. A copy of the resolution was sent to the Senior Surgeon for kindly ootaining sanction of Government to the resolution and in reply he states in his letter No.C.1247-60 dated 2-6-1944 that a copy of resolution dated 16-12-1943 for abolishing the Rural Dispensaries at Hulikal and Kerlapur and sanctioning Ayurvedic Dispensaries in their places has been communicated to Government for information and desires me to take further action for obtaining sanction of Government in the matter.

There are only three Subsidised Rural Dispensaries in Hassan District at Hulikal, Kerlapura and Ballupet. With regard to Ballupet Dispensary it has already been resolved to convert it into a Local Fund Dispensary from the current year and this will be done soon after the necessary buildings are completed.

In regard to the Dispensaries at Hulikal and Kerlapur it

it is resolved to abolish these dispensaries and [redacted] Ayurvedic Dispensaries in their stead as they have not been of much use to the public owing to the scarcity of Medical Officer.

In forwarding herewith a copy of the resolution, I request that sanction of Government be kindly obtained to the resolution xxxxxx and the same communicated.

I have the honour to be,
Sir,
Your most obedient servant,
K Sankappa
President,
District Board, Kasaan.

I.

Copy of letter No.C.1247-11 dated 28th September 1943 from the Senior Surgeon, in Mysore, Bangalore to the President, District Board, Hassan.

I have the honour to state that the Scheme of Rural Medical Practitioners has now been working for the past 7 years. On reviewing the working of this scheme, it is found that it has not served the purpose it was expected to. It has resulted in a discontented service neither useful to the public nor satsifactory to the practitioner. The appointments of these Practitioners being outside the cadre of the Department, the absence of any sort of medial help to them, the want of social amenities and conveniences in places where they are located, and the lack of any private practice and other reasons have all combined to make their lot a difficult one, and instances are not wanting where these practitioners have either refused to accept these appointmnets or resigned their jobs to take up service elsewhere. Of late many such institutions have been left unopened for want of practitioner to go and settle down there. In view of these facts, Government are of opinion that this scheme has not been a success, and that it would serve no useful purpose to continue this. It is, therefore, proposed that most of these institutions may, with advantage be Converted into Reduced Scale Dispensaries (as per scale of cost enclosed) in which case the conditions of sercice will be more attractive and the institutions will also be of more service to the Rural Population. I request you to have this aspect of the case considred by the District Board and furnish me with proposals for the conversion of all or some of the existing Subsidised Rural Institutions in your District into Reduced Scale Dispensaries so as to enable me to take further action.
